Location in a Box: Turnkey IT Deployment for Education

Higher Education and K-12 face the same reality: tight deadlines, limited staff, and rising pressure to modernize technology across campuses, classrooms, and offices.

Yet every rollout, no matter the size, requires consistent configuration, preparation, and installation that most IT teams no longer have the bandwidth to deliver.

What SLED IT Teams Are Up Against

42% of higher-ed institutions surveyed expect IT budget cuts in 2025-26 (median cut ~8%)¹

50% of schools say they are understaffed (as of 2024)—staffing capacity remains a significant pain point²

Across all sectors, IT teams are expected to do more with fewer resources—and need a scalable way to standardize deployments.

Turnkey IT Deployment

Location in a Box, powered by Connection's Technology Integration and Distribution Center (TIDC), provides ready-to-deploy, pre-engineered technology bundles that accelerate rollouts and ensure reliable, repeatable deployments across all education environments.

Ready-to-install shipments with clear labeling and custom kitting

Preconfigured, repeatable IT kits for classrooms, labs, offices, and agency spaces, along with Zero-touch onboarding (Autopilot, Intune, Apple School/Business Manager, ChromeOS)

Asset tagging, engraving, sustainable packaging, and audit-ready reporting

Consistent configuration, imaging, software, and security validation

Additional skilled technicians to support overstretched IT teams

Scheduling aligned to academic calendars or agency timelines

From student devices and lab refresh kits to faculty and administration solutions, deployments become predictable, fast, and scalable.

TIDC Delivering at Scale

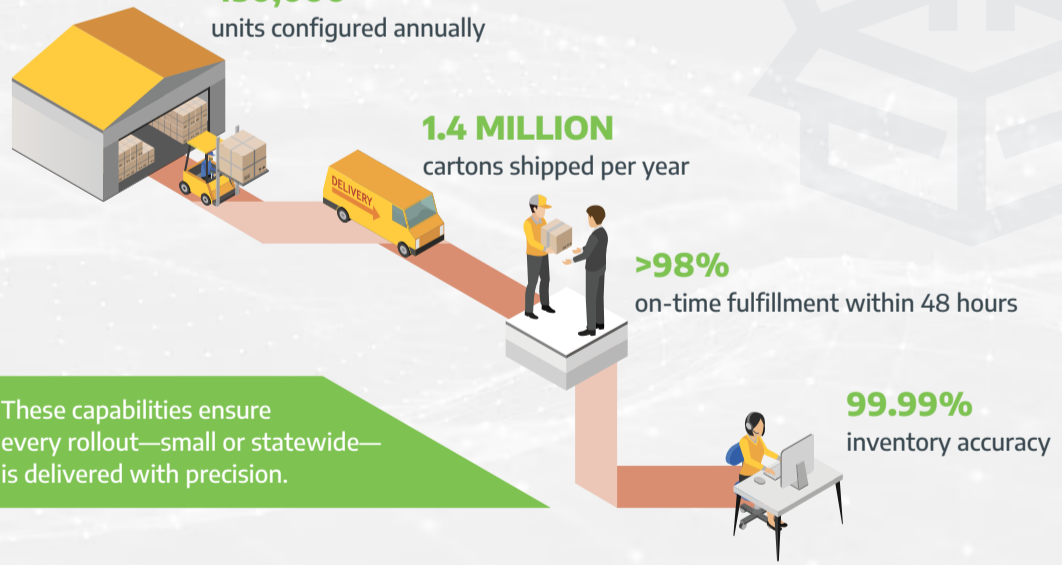

450,000+
units configured annually

1.4 MILLION
cartons shipped per year

>98%
on-time fulfillment within 48 hours

99.99%
inventory accuracy

These capabilities ensure every rollout—small or statewide—is delivered with precision.

How Connection Can Help

Connection is your partner for education technology deployment. Our Location in a Box solution brings speed, consistency, and operational relief to your IT teams, so you can focus on supporting students, staff, and citizens.
